Subject: New Product Evaluation Committee Action on:  
Poly-Triplex Liner System, by Poly-Triplex Technologies, Inc.  
Assigned # NP-03-4132

Dear Mr. Rosasco:

The New Products Evaluation Committee considered the subject products at its July 24, 2003 meeting and agreed to assign the subject product, "Conceptual Approval" status. Conceptually approved products will be further reviewed, approved or disapproved by the Department on a project-by-project basis, to ensure that the site specific design, construction, and maintenance requirements, of the project, are met.

Usage of products which have been evaluated and approved by the committee is encouraged. However, approval does not infer that products will be, or must be, used by Department forces or that the products will be actively promoted by the committee.

Sincerely,

A handwritten signature in black ink, appearing to read "Azam M. Azimi", written over a horizontal line.
